# Stage Plan and 1st Day Instruction

# Workflow/Schedule

## 2/28/2023 SKIN Building Instruction

- Before 12:00 PM. Move all the tagged furniture to the space outside of the soundstage:  
two nightstands, boxes, a clothes rack, a full bed mattress, a standing clock, a green carpet, and a chair(Cave & Nest);  
bedframe, wallpaper(llyda);
- At 12:00 PM. Use blue tape to settle the location and measurement of the set on the soundstage. (See stage plan)  
At the same time, others move all the furniture into the soundstage storage area (See stage plan).
- Paste two 10'x25' plastic sheets to the stage floor with gaffer tape.
- Install H1-H9(stocked inside of soundstage).
- Use joint compounds to seal the gap between flats.
- Apply form board to the two 6' flats. Use double side tape, and possibly screws. (wallpaper will apply to this board. It can be pasted directly. The gap of the form board might also need to seal with the joint compound, depending on the gap size.
- Pin the brick panel to the flat (confirm with me first).  
Paint the window wall with primer,  
Paint the top 2' of all three walls with brown paint.
- Use location tape to apply wallpaper (see rendering).  
Scenic paint around the brick wall, grey fade around, joint compound cover the form texture
- Pin picture rail to all three walls( 2' from top)(windows will cut the picture rail)  
Pin Baseboard to all three walls(bottom)
- Age wallpaper with dark brown paint with a lot of water with spray bottles.
